Master Gardener Application: **PART 2** Personal Statement

Whether in California, North Carolina or New York, the purpose of the Master Gardener Program is the same. The Master Gardener Program identifies those who want more gardening insights so they can be “multipliers” actively spread best gardening practices to the community. Although it’s always a pleasure to teach interested gardeners more about gardening, Master Gardener Training is designed expressly to enable Master Gardeners to share these practices as active and engaged community volunteers with others in their community.

Please address the following in your personal statement. If preferred, you may use a separate sheet of paper.

1. Why are you interested in Master Gardening Training?
2. Describe prior and current volunteer experience of any kind including the nature of activity and the approximate time commitment per month.
3. **Where** would you like to volunteer? Look at the list of some Suffolk Master Gardener volunteer sites/activities at the end of this document. Identify three of possible interest to you. (Plenty of Suffolk places are not on this list. Identify one of those if you prefer.) And **why** are these places of interest?
4. Cornell Cooperative Extension (CCE) Suffolk requires 125 hours of volunteer service in the first two years after training and then 30 hours per year thereafter to remain an active Master Gardener. Given your current schedule, what days of the week are likely available to satisfy the first 125 hour requirement?
